

# Rubber-like TPU (Industrial, grade)

## Key Features

UV resistance • Flexibility

## Applications

Automotive • Consumer goods • End-use parts

## Product Description

Rubber-like TPU (EOS TPU 1301) is a high-performance thermoplastic polyurethane known for its good flexibility, resilience, and adaptability. Commonly used in footwear, automotive components, sports gear, and as a foam alternative, EOS TPU 1301 is a versatile material for applications requiring superior elastomeric properties.

## Properties

Tensile modulus	60 MPa
Tensile strength (X/Y, Z)	7, 5 MPa
Elongation at break (X/Y, Z)	250, 90%
Melting temperature (20°C/min)	138°C
Density	1.11 g/cm <sup>3</sup>
Hardness	86 A
